SPECTACULAR BRAND NEW DAY!

Revisit one of the most transformative periods of Spider-Man history with some of the creators who made it happen! Spider-Man discovers one of the most valuable items the Kingpin, aka Wilson Fisk, possesses – THE LEXICON. This directory of the Kingpin's criminal enterprise could destroy the criminal landscape of New York City, and that's Spider-Man's goal when he takes it. But Fisk isn't the only person who wants the Lexicon... Mr. Negative would love his competitor's secret information, but so would Frank Castle, A.K.A. THE PUNISHER. Taking the Lexicon sure seemed like a good idea to make the city safer, but it's painted the biggest target ever on Spider-Man's back! **DO NOT MISS THIS IN-CONTINUITY ADVENTURE THAT WILL ECHO FROM SPIDER-MAN'S PAST INTO SPIDER-MAN'S PRESENT AND FUTURE!**

THE DAYS OF DOOM!

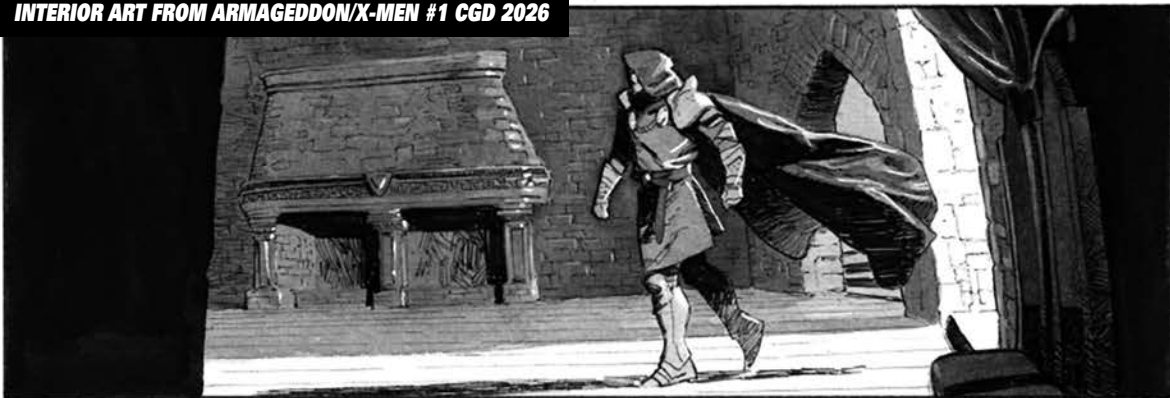

- Doctor Victor Von Doom is a great scientist, an unparalleled sorcerer and the ruler of his own nation. He is, by any measure, a great man. And yet Doom wants more.
- And when Reed Richards – Mister Fantastic, his greatest enemy and eternal rival – is showcased at a prestigious international event to which Doom wasn't even invited, Doom is outraged.
- Reed shares his plan for his eventual retirement project: the total optimization of history. He intends to go back in time, to all the eras humanity wasted on war and conflict, and fix them, saving trillions of lives and ensuring humanity can achieve its greatest and final glory.
- The idea of Reed rewriting history in his own image is, of course, antithetical to Doom, and so he decides to do it before Reed does.
- But when the Fantastic Four intervene, Doom finds himself in a battle he never intended – across all of time and space!
- DOOMQUEST is an evergreen Doom story: the perfect introduction and exploration of his character. This fun and adventurous miniseries takes readers into the heart of Victor Von Doom, across the depths of time and space and into action-packed battles you can't see anywhere else – and beyond.
