Yeah that's right, you read it properly. Kristen Kreuk of *Smallville* and *Murder in a Small Town* fame is writing a comic. And even better, *Black Star* is an absolutely gorgeous gothic noir horror with stunning art by Joe Bocardo. We also celebrate 5 years of *Gun Honey* with an OVERSIZED special of the original issue that started it all with some bonus extras that match Joanna Tan's exploits. There's some top secret *Doctor Who* stuff going on. So top secret we can just tell you it's happening and not much else. To cap it all off, *Solomon Kane*'s back with a brand new series.

Alongside all of this, we've got the series finales of *Dead By Daylight: The Hillbilly* and *Diablo: Dawn of Hatred*, plus the latest *Blade Runner: Tokyo Nexus*.

“Black Star was born while Peter, Eric, and I were filming Burden of Truth in Winnipeg. We were inspired by the city’s lore and, because we worked so well together, began spending our spare time on set (and then, for years afterwards) developing our own take on the history and magic we imagined pulsing beneath its surface, shaping the rhythms of the city and the battles raging just beyond our view.” **Kristin Kreuk**

GUN HONEY CREATOR CHARLES ARDAI ON GUN HONEY'S 5TH ANNIVERSARY!

Titan's Direct Market Coordinator Bryce Walker spoke to Charles Arđai about the milestone anniversary.

BW: CHARLES, IT'S BEEN 5 YEARS SINCE JOANNA TAN FIRST BURST ONTO THE SCENE. HOW DO YOU FEEL LOOKING BACK ON EVERYTHING THAT'S HAPPENED IN THE GUN HONEY UNIVERSE ACROSS THOSE 5 YEARS?

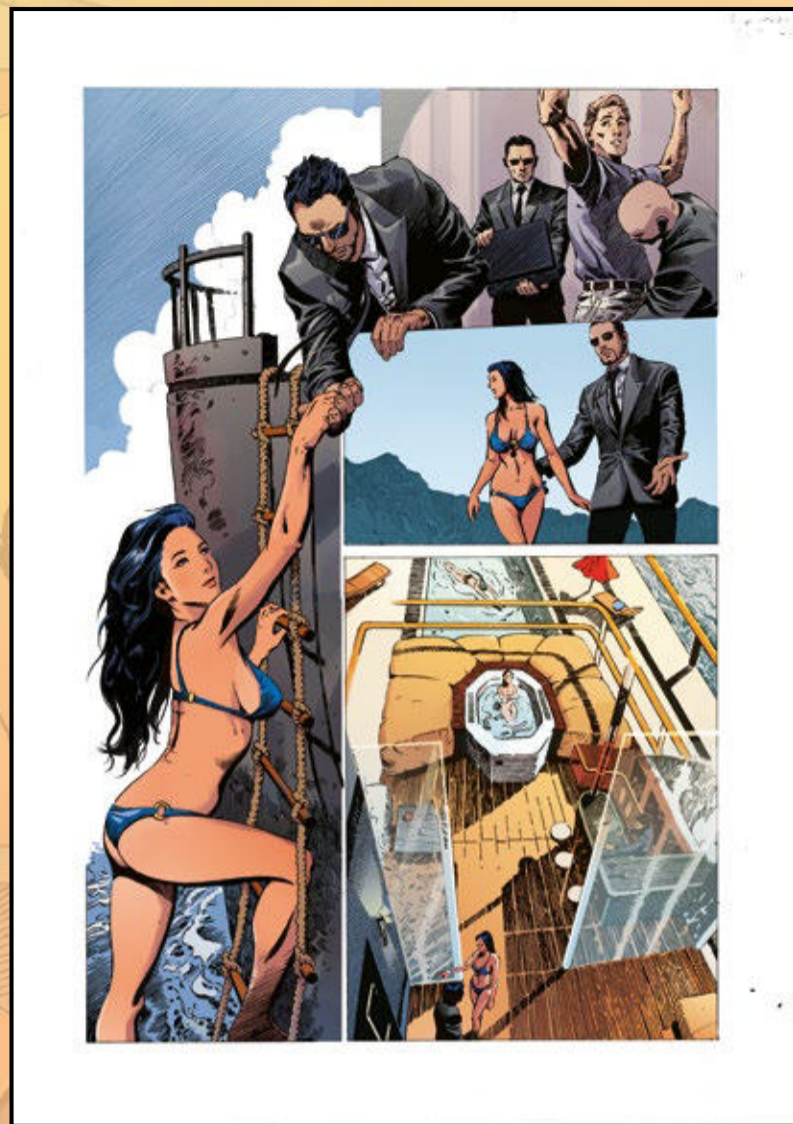

Charles: It's been amazing. We've done 7 series in 5 years (including the HEAT SEEKER spinoff books); Joanna has infiltrated the Kremlin, foiled an assassination attempt at the Paris Olympics, fought alongside topless warriors at a monastery in the Gobi Desert, impersonated a showgirl at a Monaco theatre, survived gunfights and explosions and leaps from helicopters onto moving RVs – all the adventures I ever imagined as a kid watching James Bond movies, I've gotten to bring to life in the pages of these comics. And fans have been incredibly supportive.

BW: THIS OVERSIZED SPECIAL FEATURES A SUPER-SIZED COVER GALLERY, AND THE COVERS ARE SUCH AN INTEGRAL PART OF GUN HONEY. HOW DOES IT FEEL TO HAVE SO MANY INCREDIBLE ARTISTS WORKING ON COVERS FOR YOUR TITLE?

Charles: If you'd told me that Adam Hughes and Bill Sienkiewicz and Artgerm and even the late, great Robert McGinnis (who painted the original James Bond movie posters in the 1960s!) would eventually illustrate the adventures of a heroine I created, I'd have said you were mad. And yet it has happened, and I'm deeply grateful. And there are so many other artists, seasoned veterans and blazing new talent and gorgeous cosplay models. I feel insanely fortunate to have the stories I dream up brought to life by them.

BW: WHERE DO YOU THINK THE GUN HONEY UNIVERSE WILL BE IN 5 YEARS? JOANNA OF COURSE IS FAR TOO YOUNG TO RETIRE BUT WHERE DO YOU HOPE HER EXPLOITS WILL TAKE HER?

Charles: There are lots of places she hasn't been yet – I was just talking with the artist who draws the series, Ang Hor Kheng, about what locales he'd enjoy drawing, and we thought of Germany and Hungary – the Danube River! – and volcanoes and pyramids; we haven't been to Bali or Bangladesh or Belize, Cyprus or Cameroon, Poland or Peru. And that's barely halfway through the alphabet! As long as there's a globe to trot, you can bet Joanna will be carrying out her criminal exploits all across it, for many years to come.

Alien Nation

As the scale and breadth of Venom's adventures increased, so did the Symbiote mythology and roster of recurring characters.

Carnage
 The maddest Symbiote created when perhaps serial killer Cletus Kasady bonded with a piece of the Venom Symbiote left behind in the cell he shared with Eddie Brock, Carnage quickly gained notoriety after his violent rampages and even became the star of his own video game.

The Life Foundation Symbiotes
 Agents, Pledge, Rex, Lohan and Scrim were forcibly separated from the Venom Symbiote - as detailed in Venom - Lethal Protector - after Carlton Drake, leader of the Life Foundation, observed how Carnage was separated from the Symbiote in prison. The Life Foundation Symbiotes were bonded with volunteers who worked for the foundation, but ultimately they struggled with control issues over their O'Boys. The Life Foundation was a corrupt elite organization built around providing shelter and a survival community for the other side in the event of any world disasters. Drake sponsored his first Symbiotes to act as agents for the community and planned to spend more to build a police force.

After their bonds were destroyed, the Life Foundation Symbiotes were held in The Vault, until they found a sympathetic new host...

Scott 'Hybrid' Washington
 Scott Washington was a former guard at maximum security prison The Vault, responsible for overseeing the imprisoned Symbiotes. He showed them compassion and after being briefly bonded with them, understood their pain and helped them escape - which cost him his job. After Scott was tragically paralyzed, the escaped Symbiotes sought him out - looking for the one person who had shown them kindness - and bonded with him, turning him into Hybrid. Scott was able to control the Symbiotes and set about taking revenge on the gang that had paralyzed him and murdered his brother.

The Jury
 Made up from former guards of The Vault, this vigilante group determined to try villains for their crimes and bring them to justice. The Jury was established by Oswald and Max Taylor - father and brother to Hugh Taylor, who was a security guard at the Vault, reluctantly killed by Venom during a breakout. They wanted revenge for Hugh and, along with other former guards from the prison, became The Jury. Highly trained and skilled, they wear specially modified versions of the suits worn by Guardians at the Vault. Their suits are specially made to incorporate sonic and fire-based weapons to deal with Symbiotes.

MAY 1990
 Venom returns as he breaks out of jail and resumes his mission to destroy Spider-Man in their first confrontation of the 1990s.

JUNE 1990
 During a showdown with Spider-Man and criminal duo Slye and Stone, the Symbiote seemingly sacrifices itself for its host, Eddie Brock.

MAY 1991
 Spider-Man and Venom embark on a battle to the death on a remote tropical island. Believing his enemy dead, Eddie Brock and the Symbiote remain on the island.

APRIL 1992
 In a brutal first confrontation, Spider-Man is attacked by Cletus Kasady bonded with a Symbiote to manifest Carnage.

JUNE 1992
 Venom is showcased in a solo story that documents Eddie Brock's fateful first encounter with the Symbiote.

MINIMUM CARNAGE

Carnage returns to cause more chaos, but this time he has a new hunting ground when he is hired to kill a surprising new target.

Surprisingly impossible to impress for long, Carnage makes a terrifying return in the six-issue Minimum Carnage story arc. First at last, he heads to the Microverse - a dimension that can be reached from the Earth dimension by shattering with Pym Particles and thus compressing the person's matter to a certain point, thereby forcing it through an artificially created worm into the other universe. He is hired to put his three for bloody violence to good use and kill a god. Forming a uneasy alliance, Venom teams up with Scarlet Spider in order to find and stop him.

Escaping from the Thunderbolts Mountain Maximum Security Prison, Cletus Kasady attacked most of the prisoners and guards. Agent Venom arrives to investigate.

At a police checkpoint two hours later, the policemen discover Kasady and try to capture him. But suddenly their theories and fears are out open and some can explode. Kasady appears to have done nothing and while viewing footage of this, Venom points out a minuscule spear-wielding robotic bug, Venom asks for Elio and arrives on "really tiny killers" and he receives an article titled, "Not Everything is Bigger in Texas".

Meanwhile, in Houston two days later, Kane Parker also Scarlet Spider discovers a concave woman in the blazing inferno and a mentally shattered man. The man screams in fear when he sees Scarlet Spider thinking he means him harm.

It is revealed that the assistant's name was the wife of the terrified man, Dr. Revolta working at Lyndon B. Johnson Space Center. Kasady is lurking nearby and changes into Carnage, snatching the doctor and asking her about a prepared "Protonium Pi".

But just as he attacks, Kane crashes through a window and the two fight. Carnage thinks Kane is Spider-Man but Scarlet Spider steps his neck. However, Carnage simply pops it back into place and stabs his foe with a Symbiote tentacle in his opposite hand to get free.

He from behind, Kane sees a tiny group of people, who order Carnage to help them reach the Pi.

As they enter the pit, one of the small creatures reminds Kasady of their agreement. "I'll let you, you give me a whole new life. A new start. A whole new universe to kill people in."

As he gets back on his feet, Kane tries to kill Carnage as Venom tells him to surrender, but the two soon realize they are on the same side. However, Flash loses control of the Symbiote which attacks Kane, who manages to resist until Flash has the Symbiote back under control. The heroes discover that Carnage has escaped into the Microverse. Flash persuades Kane to chase their foe, but they end up in different points of the Microverse.

On arriving, Venom is attacked by some fairies, while the Scarlet Spider meets a hooded man, known as the Redeemer, and is attacked by a monster. Kane kills the monster.

Arcturus Rahn, the captain of Enigma Force, introduces himself to Agent Venom. Team member Flash reveals that the Symbiote is a danger to the Microverse. Bug, another team member, touches it, which confirms that the Symbiote has a harmful effect on the inhabitants of the Microverse.

Uncontrollable, Carnage begins to massacre the people who brought him into the Microverse, also attacking Kane and the Redeemer. During the skirmish, Flash loses control over the Symbiote again. Flash takes the Symbiote, but Agent Venom and Enigma Force are captured along with Carnage by the followers of Marcus Rahn. Rahn explains that the Symbiotes arrived in the Microverse many years ago. They had attempted to consume it along with the god who ruled the Microverse, but he drove them away. In an attempt to because the Microverse's new god, Rahn summoned the Symbiotes to return to the Microverse to destroy the old one.

Elsewhere, the Scarlet Spider who had to let go of Carnage in order to assist the Redeemer learns that the presence of the Symbiotes could destroy the Microverse, eventually destroying the Redeemer.
